

Kent Repeater Group

Report for the Year ended 31 March 2011

Chairman's Report

It is pleasing to report that there have been no changes in personnel this year and repeaters have largely performed well. The Repeater Manager's reports can be found below.

As ever the Manager's go quietly about their business with a fair amount of work being done at EK and KN on the aerials and the repeater hut respectively.

The financial position of the Group is satisfactory but a major failure or loss could place our finances under some strain.

The Group was present at the Rainham Radio Rally, we hope to be in our usual position in the Main Hall in 2012.

With many thanks for your support of the Group in 2010.

Martin Stoneham G4RVV

The Annual General Meeting will take place at 2000hrs on Friday 17 June 2011 in the Electronics Laboratory, University of Kent, Canterbury.

The agenda is printed overleaf. The minutes of last year's AGM may be downloaded from the Group web site—Newsletter & Leaflet page—<http://www.krg.org.uk>
Members who do not have access to the Internet may obtain a copy by calling the Chairman, G4RVV on 01474 853014 or contacting any member of the Committee.

Technical Reports [*Repeater Manager*]

GB3CK [*MOZAA*] Following the resolution of a noise problem the repeater continues to work well.

GB3EK [*G4TKR*] The aerial feeder has been replaced and the top aerial may require replacement. There is a fair level of activity.

GB3KN [*G3VFC*] The repeater continues to work well. The repeater hut has been completely insulated and lined to provide a more stable and pleasant working environment.

GB3KS [*G4TKR*] some local interference remains giving occasional noise but this does not cause undue disruption. The Group remain the sole occupiers of the site.

GB3NK [*G4EGU*] The repeater is working well.

GB3RE [*G6RVS*] The repeater opens with low power and this remains under investigation. The possibility of a complete upgrade is being considered.

GB3SK [*G6DIK*] There was a problem with output power whilst the news was being read, this was resolved by resetting the repeater and it is functioning well.
